

BE SEEN!

Hi-vis clothes are fluorescent and reflective. Fluorescent materials show up in the daylight. These can be yellow, orange, pink or green! Reflective silver materials shine in car headlights when it's dark.

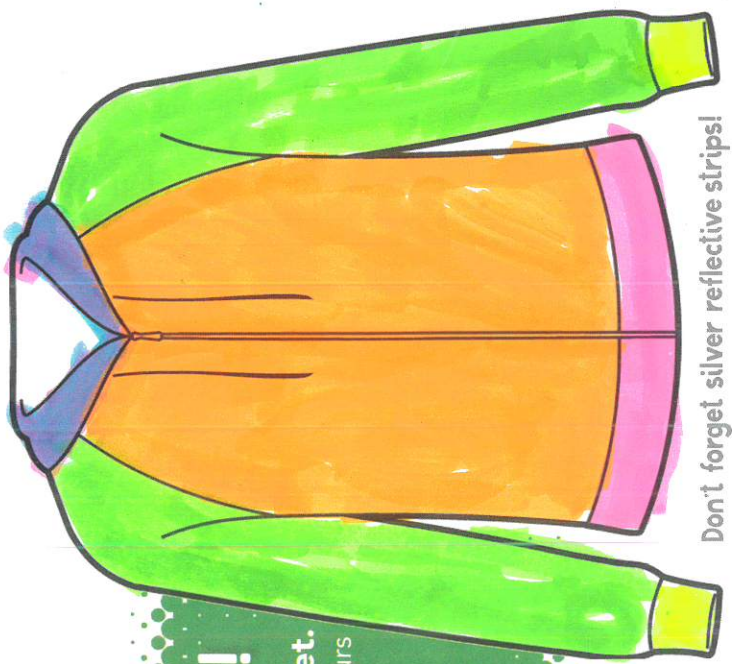

If you're out walking, cycling or scooting

you need to look where you're going and make sure other road users can see you!

Wear bright, hi-vis clothes and stay in well-lit areas!

Design a top!

Decorate your own jacket. Remember to use bright colours so that you can be seen!

Don't forget silver reflective strips!

BE SEEN!
